

Developmental Origins
of Health and Disease

The 2019 Scientific Meeting of the Canadian DOHaD Society

February 11-12, 2019
Mont Tremblant, Québec

The 2019 Scientific Meeting of the Canadian DOHaD Society (<http://dohad.ca>) will be held on February 11th & 12th, 2019 at the Fairmont Tremblant in Mont Tremblant, Québec, on the traditional territory of the Algonquin People.

The scientific program includes three thematic sessions: *Epigenetics and Omics Mechanisms Underlying DOHaD, Vulnerable and At Risk Populations, and Solution-Oriented DOHaD Research.*

The program will include Keynote addresses by **Tessa Roseboom** (*Dutch famine birth cohort; University of Amsterdam*) and **Dr. Robert A. Waterland** (*Nutritional influences on developmental epigenetics; Baylor College of Medicine*). The meeting will also feature talks by invited Canadian speakers and trainees, an *Outreach, Networking and Collaboration event*, as well as updates about the 2021 World Congress on DOHaD that will be held in Vancouver, Canada.

Please note that the meeting will begin on **February 11th at 17:30** with Welcome and Opening remarks. Abstract submission for DOHaD-themed research is possible via the CNPRM site: <https://www.cnprm.org/abstracts/>. There will be no separate abstract submission for the DOHaD Canada meeting. The joint DOHaD poster session between DOHaD Canada and CNPRM is on February 12th from 5:00-7:00 pm. We encourage you to attend CNPRM and present your posters there!

You can make your hotel reservation using this link: <https://www.cnprm.org/venue/>. If you are also attending the CNPRM 2019 meeting, you only need to make ONE hotel reservation that includes the appropriate dates. However, please note that while CNPRM 2019 will cover accommodation costs for trainees (12th through to the 14th February, 3 nights), extra accommodation requirements on either side of this block will need to be covered by the registrant. Also please remember you still need to register for BOTH meetings separately here <http://dohad.utoronto.ca/meeting2019/> and here <https://www.cnprm.org/registration/>.

We look forward to seeing you in February—Don't forget to register!

Best Regards,
Kristin Connor and Serge McGraw conference co-chairs
