

## DOHaD Summer Course 2022

*DOHaD: Innovations to Address Gaps in Knowledge*

The OHSU Center for Developmental Health has one of the world's largest and most established research groups in Developmental Origins of Health and Disease, or DOHaD. Join us *in person* this year, to learn about the role fetal development plays in population health. Attendees will have an opportunity for small group discussions with presenters during breaks.

### Keynote Speakers

**Kent Thornburg, Ph.D.**, Interim Director of the OHSU Knight Cardiovascular Institute and Director of both the Center for Developmental Health and the Moore Institute for Nutrition & Wellness.

**Paolo Rinaudo, M.D., Ph.D.**, Professor, OB/Gyn, Reproductive Sciences, School of Medicine, University of California, San Francisco.

This in-person mini-course is designed for graduate students, post-docs and early career scientists interested in the long-term implications of fetal development.

**Dates:** Sunday-Tuesday, Aug. 21-23, 2022

**Location:** Portland, OR

**Registration:** [Register](http://www.ohsu.edu/dohadsummercourse) for the course ([www.ohsu.edu/dohadsummercourse](http://www.ohsu.edu/dohadsummercourse))

**Cost:** \$150

**Questions:** Email [rogerki@ohsu.edu](mailto:rogerki@ohsu.edu)
