

# TRAINEE DEVELOPMENT COMMITTEE (TDC) SEMINAR SERIES 3

## THE IMPACT OF PRENATAL STRESS ON THE INFANT GUT MICROBIOME

**MARCEL VAN DE WOUW, PHD**

Post Doctoral Scholar

Developmental Psychobiology Laboratory,  
University of Calgary

8th December 2023

2 PM EST  
1 PM CST  
12 PM MST  
11 AM PST

[https://ucalgary.zoom.us/j/967  
35040688?from=addon](https://ucalgary.zoom.us/j/96735040688?from=addon)  
Meeting ID: 967 3504 0688

*During this seminar, Marcel will discuss his research which focusses on the role of the microorganisms in the gastrointestinal tract (i.e., gut microbiome) on early life development and factors important to early life development (e.g., stress).*
